SUMMARY

Front-end developer with 1 year of experience in building web applications using Reactjs and modern JavaScript tools/frameworks. I am interested in building usable, useful, well-constructed websites and applications.

EXPERIENCE

Full-stack developer | *React, TypeScript, MUI, Redux*

2022 – Present

Freelance

Remote, Russia

- Refactored front-end applications
- Implemented metrics which collect information about user's interaction with website
- Deployed applications on VPS
- Added new features to existing application
- Converted layout to HTML

PROJECTS

YouTogether | *React, Effector, Feature-Sliced Design, Storybook, i18next, Docker, Github Actions*

2023 – Present

- Developed UI-kit with documentation using Storybook
- Closely collaborated with backend developer to meet the design requirements
- Designed application API using OpenAPI specification
- Implemented localization for Russian and English using i18next
- Managed CI/CD using Github Actions and Docker

UrlShortener | *React, Redux, Feature-Sliced Design, Socket.io, GraphQL*

2022

- Implemented pagination and real-time data fetching for counting clicks on the link using Socket-io and GraphQL

EDUCATION

Voronezh State Technical University

Voronezh

Computer Systems, Information Technology and Programming

2021 – 2025
